COMPACTA SPR

HORIZONTAL ROTATING RING STRETCH WRAPPERS

The Compacta Suspension Packaging Roller (SPR) is a horizontal stretch wrapper created to provide a safe and effective solution for the packaging of semi-finished products placed on cardboard.

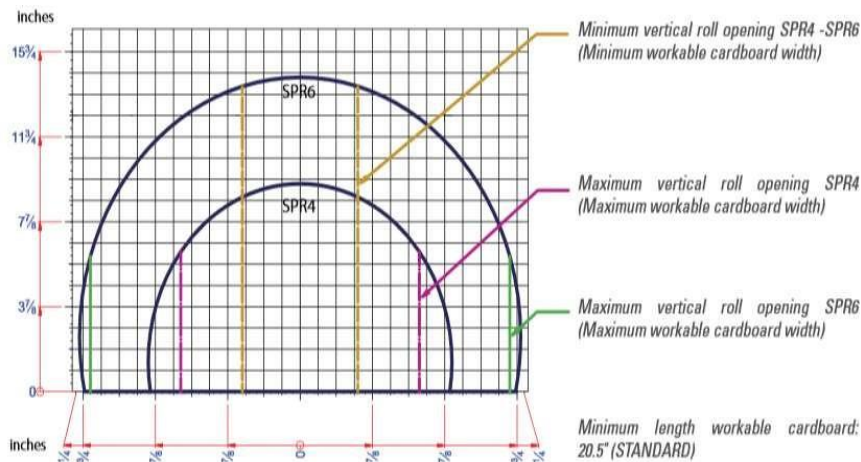

West Coast Supplies

Innovative Packaging Solutions

Performance features:

The Compacta SPR features idle roller infeed and outfeed with motorized side guides. Conveyors and guides are designed to handle heavier products on thicker packaging materials.

Motorized side guide rollers with idle conveyor rollers for 0.25" base

COLOR TOUCH SCREEN

Redesigned control panel includes touch screen. The large color screen allows you to create programs quickly and easily. Upgraded memory can now record up to eight different programs.

FILM CARRIAGE UNIT

The roll carriage has a direct braking transmission roller and is continuously adjustable. It also simplifies roll loading and film insertion. The roll carriage is equipped with locking and quick release.

CUTTING AND CLAMPING UNIT

The automatic highly reliable dual rod clamping and cutting system fully automates the wrapping process.
