

CUBE™

TECHNOLOGY

Deliver EXACTLY the right amount of film at EXACTLY the right position with EXACTLY the right containment force.

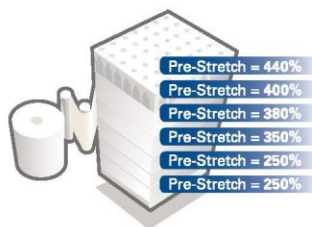

- ▶ REDUCES FILM COST BY 30% TO 55%
- ▶ IMPROVES LOAD CONTAINMENT
- ▶ REDUCES PRODUCT DAMAGE BY 40%

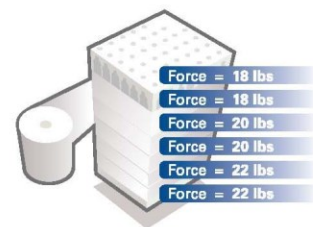

Lowest total cost of ownership

With multi-level variable pre-stretch ensures the best film economy for every load. Guarantees the highest containment and best film economy from any stretch film.

Adjustable pre-stretch up to 9 times on each load. Strategic film placement allows the film to be placed exactly where it has the most impact on load stability and containment.
